

LAKE TAHOE DINNER CRUISE NATIONAL CAR CLUB OF AMERICA

Lake Tahoe is truly one of the most beautiful destinations in the world. The lake is situated in what is aptly called "The Tahoe Basin", surrounded by dramatic Sierra Nevada Mountains and thousands of acres of National Forests. During this picturesque tour, you will continually be assaulted with what many visitors, and locals alike, call "Sensory Overload". You will journey through high mountain passes before dropping down to the lake's basin, which is 6,200 feet in elevation. Your knowledgeable private "Tour Guide" will provide you with fascinating facts about the area's history, culture and geology.

Once you arrive at the marina, you will board a replica of an historic paddlewheel boat, many of which plied the waters of the lake as public transportation, long before paved roads were built. Once on board and under way, much of the cruise is narrated and you will hear some of the colorful stories about life around the lake during past times. You will also, have the opportunity to view a video about what is going on under the surface of the lake, where there are shipwrecks and unusual creatures and plants.

At a designated time and location on-board, you will be served a delightful dinner, also there will be live music and dancing for you all the while viewing this beautiful setting. You may even wish to visit the open deck for a totally unobstructed view.

Upon completion of this restful and informative cruise, you will again board your motorCoach and return to Reno – the private Tour Guide will be with you all evening to make sure you have a great cruise.
